Quoting, Reimagined.

Paperless Parts' quoting and collaboration software helps the world's leading custom part manufacturers win more business, increase efficiency, drive consistency, and reduce risk in their business.

How Paperless Parts Improves Quoting in Your Shop

Workflow management & centralization

Keep all files, parts, and job knowledge in a single, secure place to get accurate quotes out the door quickly.

Features like our automated quote setup workflow, analytics, and custom dashboards streamline your process from the second an RFQ is received to the minute an order is placed.

Costing & pricing automation

Our patented geometry-driven technology helps you estimate costs quickly and apply shop-specific pricing with automated rules.

Features like live metal pricing and availability and automatic Design for Manufacturability warnings further speed up your quote turnaround time.

Enhanced buyers' experience

Having a professional, modern presence and being easy to do business with builds brand loyalty across your customer base.
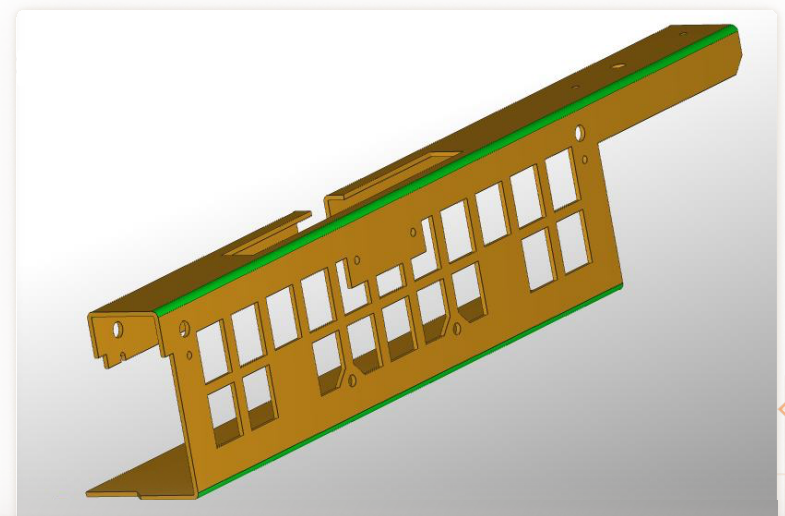

Plus, as a CMMC Compliant/ITAR-registered product, Paperless Parts enables you to attract top-tier government contractors.
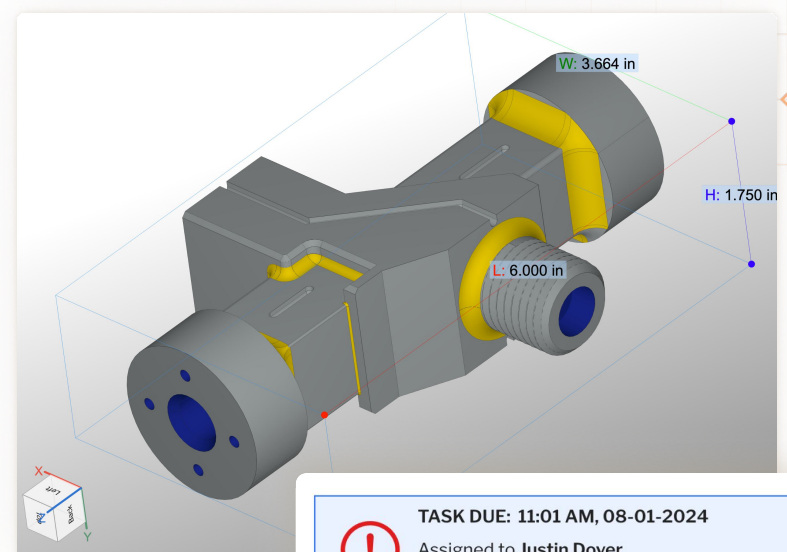

Integration into your tech investments

Paperless Parts' API allows you to integrate seamlessly with other essential systems in your shop, including your ERP system, CRM, accounting software, and more.

With a single click, push all relevant quote data directly from Paperless Parts into other solutions or pull critical information from your systems into Paperless Parts.

Operations			Setup Time	Run Time	1	10
Admin			0.50 hours	---	$32.50 $32.50	$32.50 $3.25

TASK DUE: 11:01 AM, 08-01-2024
Assigned to **Justin Dover**
Edit   Resolve

@Justin Dover I need you to get me a cycle time estimate on this part. My gut says it's around 40 minutes.

Real Results

Manufacturers specializing in machining, sheet metal fabrication, additive, and rubber manufacturing drive tangible business results with Paperless Parts.

Greater resource efficiency

"With Paperless Parts, quoting has become so much easier and less time-consuming. **Everything I need is in one platform**, making my job so much more efficient."

CAMM Metals, Inc.

Increased revenue & profitability

"Since implementing Paperless Parts, we feel busier. We're on track to hit end-of-year numbers that are **20-30% higher** than last year's."

BAILLIE FABRICATING & WELDING INC.

Consistency & standardization

"The scientific approach of Paperless Parts is a game-changer. We no longer quote based on 'feel' but rely on **data-driven calculations** that get us to a quote faster, giving us a competitive edge in the market."

LEECH INDUSTRIES
A DIVISION OF LEECH HOLDINGS, LLC

Process optimization

"With Paperless Parts integrating with our ERP, our ability to go from RFQ, to quote, to order, to job has improved significantly as the **hand-off of responsibilities is seamless.** As a result, we've been able to keep pace with our record-best bookings over the last 6 months."

WALTZ BROS. INC.

Reduced risk

"We had a part that cost us over $100K because we missed an EDM step. We put that part through Paperless and it caught it. That's what makes it such a benefit; **you are not going to make a huge mistake**."
